

Build Your Brand III: Starting your job search

Please note that if the instructions here differ from the PDF Task instructions, you need to follow these (PDF) instructions as they will be the most up to date.

If you're self-employed:
Input the contact details of companies and the business contacts of places you would pitch your services or products to.

If you're not self-employed:
Think about the sort of roles you might like to apply for and the sort of companies you might want to work for. Find 5 junior tech roles currently being advertised, ensuring you consider large and small companies as well as tech startups. For each of these, identify the recruiting hiring managers (possibly the Talent or HR people at each company). Capture the details of each of the 5 roles and contacts in this form. If any of your URLs are greater than 255 characters, shorten them by using bitly.com and paste the shortened version into the form.

Your Personal Details:
